

The background of the advertisement features a pair of hands wearing teal-colored Ansell Guardian gloves. The hands are positioned to form a triangle, with the index and thumb fingers of each hand meeting at the top and bottom vertices. Through this triangular frame, a modern, circular white building with horizontal window bands is visible, situated on a green lawn under a dramatic, cloudy sky with warm, golden light.

FOCUS ON SAFETY

AnsellGUARDIAN® is our proprietary service to help companies select the right personal protective equipment solution to improve their safety, productivity and cost performance.

WHAT'S THE PROCESS?

By focusing on the most relevant areas, AnsellGUARDIAN® can deliver best practice recommendations with the most impact for our customers' businesses. Our solutions can be implemented within a single application or entire site, locally or globally. We have the capability to consolidate data around different sites.

AN INTEGRATED SOLUTION

AnsellGUARDIAN® partners with industrial and medical organizations to address the challenges in today's PPE environment and deliver measurable safety and business improvements.

Safety/compliance

- Personalized risk management solutions (industrial and chemical)
- Data-driven recommendations
- Increased safety awareness and worker motivation
- Regulatory compliance

Increased safety and compliance

Productivity

- Best practice recommendations to optimize PPE dispensing
- Improved output
- Reduced waste
- Solutions for reuse, recycling & disposal
- Simplified accessibility and inventory

Improved productivity

Costs

- Business performance improvement/implementation across 7 cost drivers that measure financial progress
- Reduced costs of injuries
- Lower procurement & transaction costs
- SKU reduction and standardization

Lower costs

PROOF POINTS

Experience: More than 12,000 assessments conducted since 2010.
Results: Since July 2014, our recommendations have resulted in injury reductions on an average of 65%, customers have decreased product styles by an average of 25%, and we have saved companies a total of \$148 million, a \$65,000 average.
Global: We operate in more than 55 countries.
Technology: Industry pioneer with the most advanced and proprietary technology and analytics.

OUR OPERATING PRINCIPLES

Partnership: While supplying safety solutions, we share our expertise to analyze, benchmark, implement and improve PPE-related operations and performance.
Adaptation: No matter what business, industry or application, we tailor and adapt solutions based on data-driven analytics.
Transformation: Full implementation of our recommendations to ensure the success of PPE change management initiatives.

CHEMICAL PERMEATION DATA

Identify Solutions

SOLUTIONS

Our solutions evaluate the resistance of glove and suit materials with specified chemicals to offer a personalized assessment with expected permeation times. Your benefits are: enhanced chemical protection, performance and compliance.

1

- Quick access to chemical permeation data for the most common chemicals (including ASTM, EN and ISO standards)
- Search for hand protection and body protection solutions

2

- Advanced access to chemical permeation data and the possibility to save, download and email your individual reports

3

- Customized on-site assessment to discuss your individual safety and business performance needs
